## Backyard Compost Bin Sale & Demo Sat., April 18th in Paramus

Composting is nature's way of recycling!

Are you interested in composting?

The BCUA encourages residents to recycle yard waste by setting up a backyard compost pile. The benefits to both the homeowner and the environment are great. Composting turns grass clippings, leaves, dead garden plants, and fruit and vegetable scraps from the kitchen into something useful for your gardens.

If you'd like to purchase a ready-made bin, the BCUA will host an "Earth Machine" compost bin sale and demonstration at Bergen Community College, 400 Paramus Rd., Paramus on Saturday, **April 18, 2015 from 9:00 a.m. to 2:00 p.m.**, rain or shine. Bins will be available on a first-come, first-served basis for \$60; the bins typically retail for over \$100. Check or money order preferred. No credit cards accepted. Other compost items will be available for purchase.

If you're unable to attend, bins are also available Mon-Fri at the BCUA by appointment only. Contact the BCUA Environmental Programs Hotline at (201) 807-5825 to schedule an appointment or for more information.

This program is available to Bergen County residents only. Proof of residency is required.
