2026 AUTHORITY BUDGET MESSAGE & ANALYSIS

Bergen County Utilities Authority

FISCAL YEAR: January 01, 2026 to December 31, 2026

Answer all questions below using the space provided. Do not attach answers as a separate document.

1. Complete a brief statement on the Fiscal Year 2026 proposed Annual Budget and make comparison to the Fiscal Year 2025 adopted budget for each Revenues and Appropriations. Explain any variances over +/-10% (as shown on budget pages F-2 and F-4) for each individual revenue and appropriation line item. Explanations of variances should include a description of the reason for the increase or decrease in the budgeted line item, not just an indication of the amount and percent of change. Upload any supporting documentation that will help explain the reason for the increase or decrease in the budgeted line item.

See Supporting Documentation Upload (Page N-1 Addendum). The information presented on Page N-1 Addendum compares the 2026 Proposed Budget to the original 2025 Adopted Budget, which was approved by the Authority on December 31, 2024.

2. Describe the state of the local/regional economy and how it may impact the proposed Annual Budget, including the planned Capital Program.

The local economy is not expected to have an impact on the proposed 2026 Budget.

3. Describe the reasons for utilizing Unrestricted Net Position in the proposed Annual Budget (i.e. rate stabilization, debt service reduction, to balance the budget, etc.) If the Authority's budget anticipated a use of Unrestricted Net Position, this question must be answered.

Unrestricted Net Position in the amount of \$5,952,647 was utilized to balance the Water Pollution Control 2026 Budget.

FISCAL YEAR: January 01, 2026 to December 31, 2026

Answer all questions below using the space provided. Do not attach answers as a separate document.

4. Identify any sources of funds transferred to the County/Municipality as a budget subsidy or shared service payments, **pilot** payments, or other types of contracts or agreements. (Example - To provide police services to the Authority, etc. and explain the reason for the transfer (i.e. to balance the County/Municipal Budget, etc.)

There are no funds included in the 2026 Budget for this purpose.

5. The proposed budget must not reflect an anticipated deficit from 2025 operations. If there exists an accumulated deficit from prior year's budgets (and funding is included in the proposed budget as a result of a prior year deficit) explain the funding plan to eliminate said deficit (N.J.S.A. 40A:5A-12). If the Authority has a net deficit reported in its most recent audit, it must provide a deficit reduction plan in response to this question.

The proposed budget does not reflect an anticipated deficit from 2025 operations. The audited balance of Unrestricted Net Position as of December 31, 2024 reflects a deficit position to account for the Authority's proportionate share of the PERS multi-employer defined benefit plan sponsored and administered by the State of New Jersey. The Authority plans on funding the accrued pension liability based on actual amounts billed to the Bergen County Utilities Authority by the State of New Jersey Division of Pensions, as required.

(Prepare a response to deficits in most recent audit report pertaining to Deficits to Unrestricted Net Position caused by recording Pension and Post-Employment Benefits liabilities as required by GASB 68 and GASB 75) and similar types of deficits in the audit report. How would these deficits be funded?

6. Attach in FAST a schedule of the Authority's existing rate structure (connection fees, parking fees, service charges, etc.) **if it has been changed since the prior year budget submission** and a schedule of the proposed rate structure for the upcoming fiscal year. Explain any proposed changes in the rate structure and attach the resolution approving the change in rate structure, **if applicable**. (If no changes to fees or rates, indicate answer as "**Rates Are Staying The Same**".

The Authority's annual Water Pollution Control service charges are calculated in accordance with a formula contained in the Authority's Rules and Regulations. The Authority's existing rates are \$1,053.23 per 1,000,000 gallons of metered flow, \$397.31 per 1,000 pounds of BOD and \$350.38 per 1,000 pounds of TSS. There will be no anticipated change in the formula for the 2026 rates which will be based on the 2026 budgeted service charges and actual usage for the period 11/1/2024 to 10/31/2025.

The Authority's existing 2025 connection fee rate per equivalent dwelling unit is \$2,613. This rate is updated annually in accordance with state statutes.
